## **Greater Washington Partnership Praises Passage of Maryland's Transit Safety and Investment Act**

**Baltimore, MD** – The Greater Washington Partnership today released the following statement praising the passage of the Transit Safety and Investment Act (TSIA) by the Maryland General Assembly:

*“We applaud the Maryland General Assembly for taking a big first step to improve transportation equity by establishing minimum levels of capital funding for transit. High-quality transit service is essential to the health and success of the Capital Region’s economy, the daily lives of hundreds of thousands of residents and commuters, and the ability for our region to become the most inclusive economy in the nation.*

*This dedicated funding, coupled with the federal Infrastructure Investment and Jobs Act, will address the State of Good Repair backlog faced by the Maryland Transit Administration (MTA) and will help create the reliable transit system that Maryland residents, commuters, and businesses can rely on.”*
